

Certification cycle for organisations [art. 4 OCDP] (Data Protection Management Systems)

- **Circle size** is proportional to the importance of the audit!
- Formal **external audits!** (independent from internal ones)

Work hypothesis: (Deming cycle)

The conformity level demonstrated at the certification audit is maintained if not improved by the DPMS during the next 3 years!

Note: at higher level, there is a similar accreditation cycle for certifiers, but on a 5 year basis...
